SCICAP HEAD START & EARLY HEAD START ANNUAL REPORT 2021-2022

SCICAP's Agency Mission

South Central Iowa Community Action Program empowers individuals and families with services to become self-sufficient and contribute positively to their communities.

SCICAP Head Start's Mission Statement

To provide a quality program to empower children and families for lifelong learning and success.

Program Overview

SCICAP's age-appropriate, quality comprehensive Head Start and Early Head Start program is funded to provide 212 children with school readiness skills, nutritious breakfasts, lunches and snacks, health screenings, social service supports, mental health support and family involvement opportunities. SCICAP has been serving Head Start and Early Head Start children and families since 1966.

All classrooms in our five counties have qualified teachers, to best serve our children so they are school ready. Our goal is for Head Start children to be prepared for kindergarten, but more importantly to be lifelong learners. Head Start helps children build the skills they need to be successful in school and throughout their lives.

Children are served utilizing 9 different facilities with a total of 18 classrooms and EHS homebased services across five counties. Most center-based/collaboration students are enrolled in full-day classes.

***Five County Service Area:
Clarke, Decatur, Lucas, Monroe, and Wayne Counties***

Federal Funding

Head Start Federal Funding	\$ 2,353,713.00
Head Start Training	\$ 31,241.00
Total Federal Funding	\$ 2,384,954.00
Non-Federal Share	\$ 542,019.00

BUDGET - HS/EHS FEDERAL GRANT

■ Personnel ■ Fringe ■ Travel ■ Equipment ■ Supplies ■ Contractual ■ Other ■ Indirect ■ T&TA

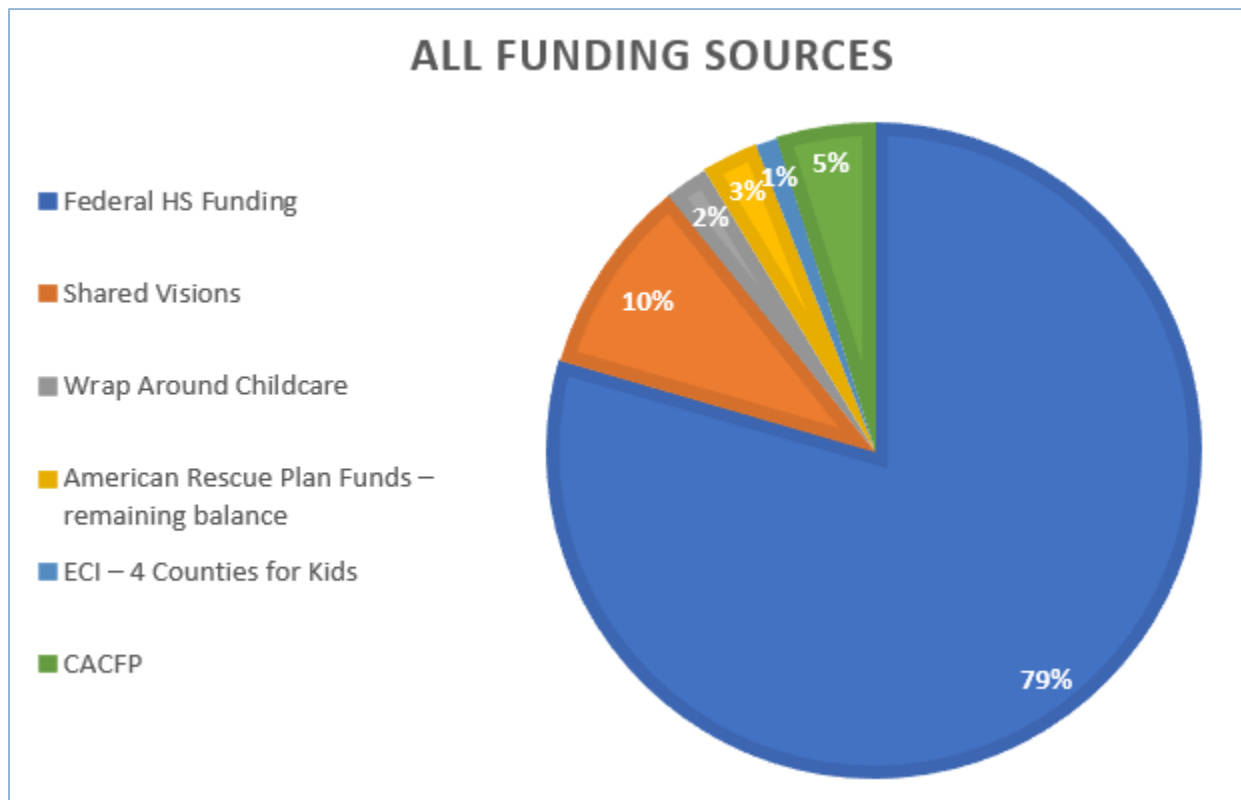

EXPENDITURES HS/EHS FEDERAL GRANT

■ Personnel ■ Fringe ■ Travel ■ Equipment ■ Supplies ■ Contractual ■ Other ■ Indirect ■ T&TA

All Funding Sources

CACFP	\$ 143,927.00
Shared Visions	\$ 293,046.00
Wrap Around Childcare	\$ 64,200.00
American Rescue Plan Funds – remaining balance	\$ 82,805.00
ECI – 4 Counties for Kids	\$ 32,500.00
Federal HS Funding	\$ 2,384,954.00
Total Funding	\$ 3,001,432.00

Non-Federal Match Funds - Program In-Kind \$ 542,019

Volunteers' time and other contributions are an integral part of the program. Volunteers include Governing Board, Policy Council, Parent Meetings, community partners, parents' support of curriculum activities, classroom support and facility/center assistance. Collaborations contribute utilities, maintenance, space, and staffing support.

Renovation Project

The Albia kitchen and front entry expansion project was started in July of 2022 using remaining Covid and Carryover Funds. This project will be completed in January of 2023.

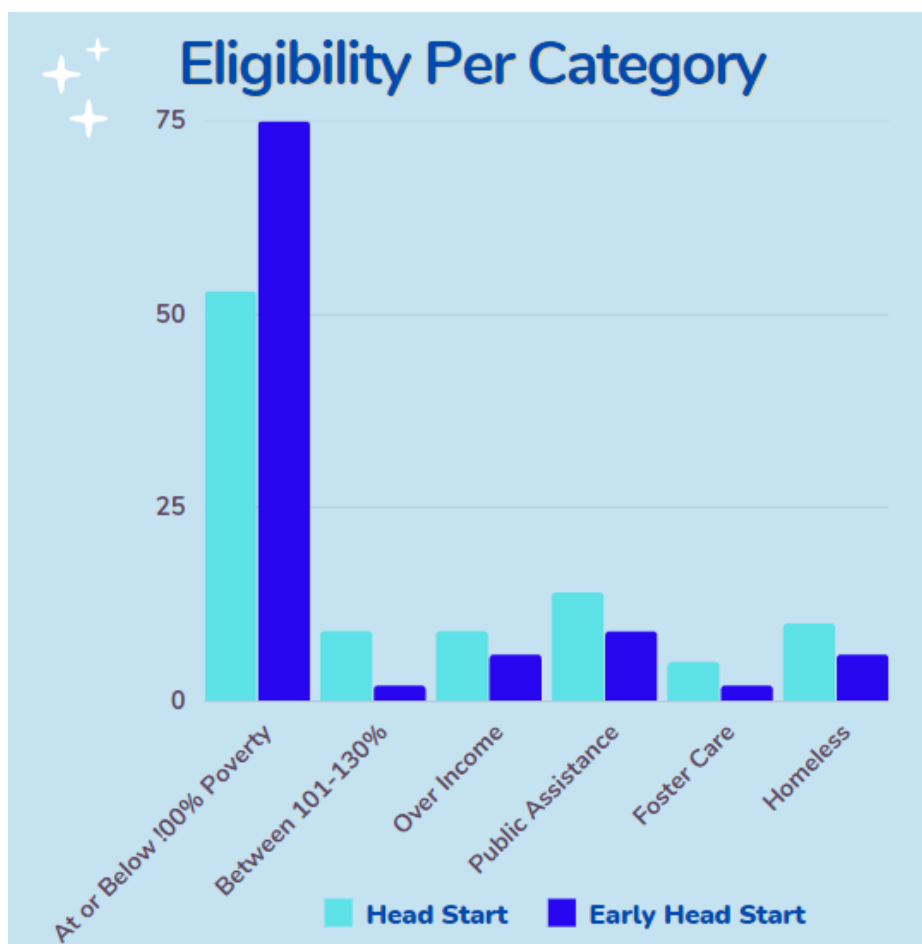

Children and Families Served

The SCICAP Early Childhood Program served a total of 193 Head Start children and 48 Early Head Start children and pregnant women. A total of 237 children were served representing a total of 222 families.

Our Head Start program averaged 178-179 enrolled students of the 180 total funded HS slots. EHS averaged 31-32 children enrolled of the 32 funded EHS slots.

Eligibility

Many children served by the program are eligible in multiple categories, however, Head Start programs may report only one eligibility category per family. Please see the percentage of eligible children in each category below.

Student Average Daily Attendance

Head Start

- 87.3%

Early Head Start

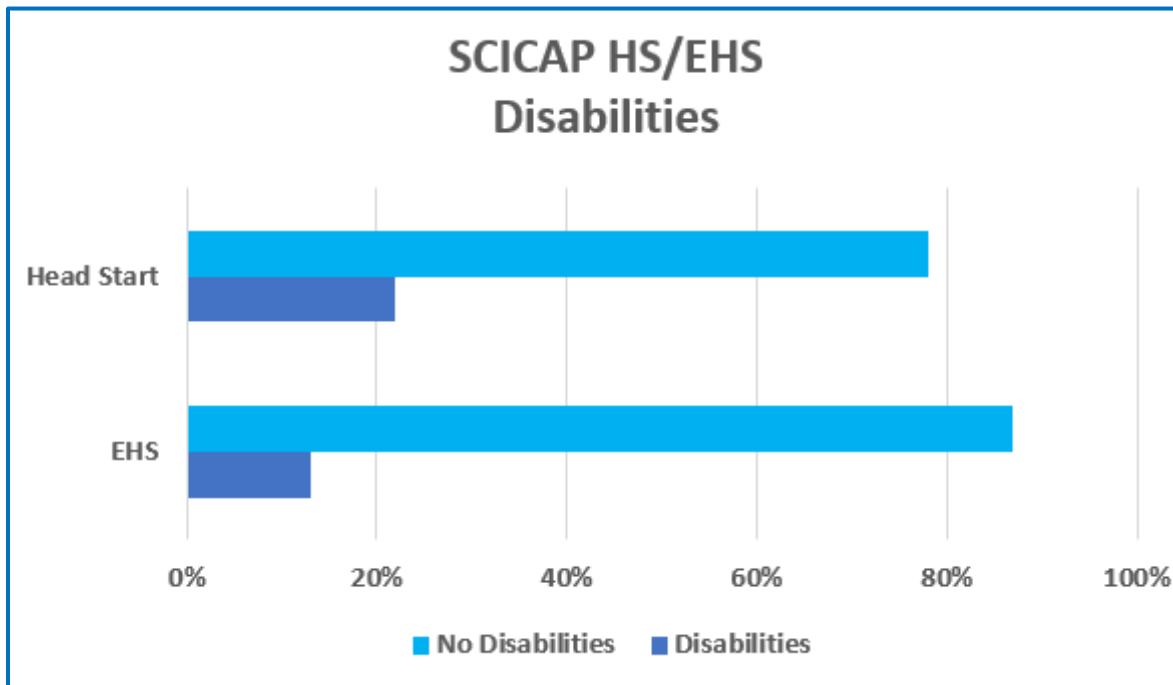

- 82%

Illnesses continued...

The Head Start and Early Head Start centers continued to have an above average absence rate due to families and children having Covid or other illnesses.

Disabilities

EHS students had a total of 13% of children with disabilities. Head Start had a total of 22% of students with disabilities. This meets the 10% requirement in the Head Start Program Performance Standards. These numbers are slightly higher when compared to the previous year. Our program partners with local AEAs to serve our children with special needs.

97 Head Start children received no-cost transportation services.

Health Services

Our program has a nurse, CMA and licensed and registered dietician on staff. Our staff conducted hearing, vision, lead and developmental screenings. Health and nutrition education and resources were provided to all families. We partner with the Lions Club for vision screenings and ISmiles for preventative dental care and oral screenings. Mental health services are contracted through Infinity Health of Southern Iowa. We also have a Behavior Specialist on staff to support our employees', students', and families' mental health.

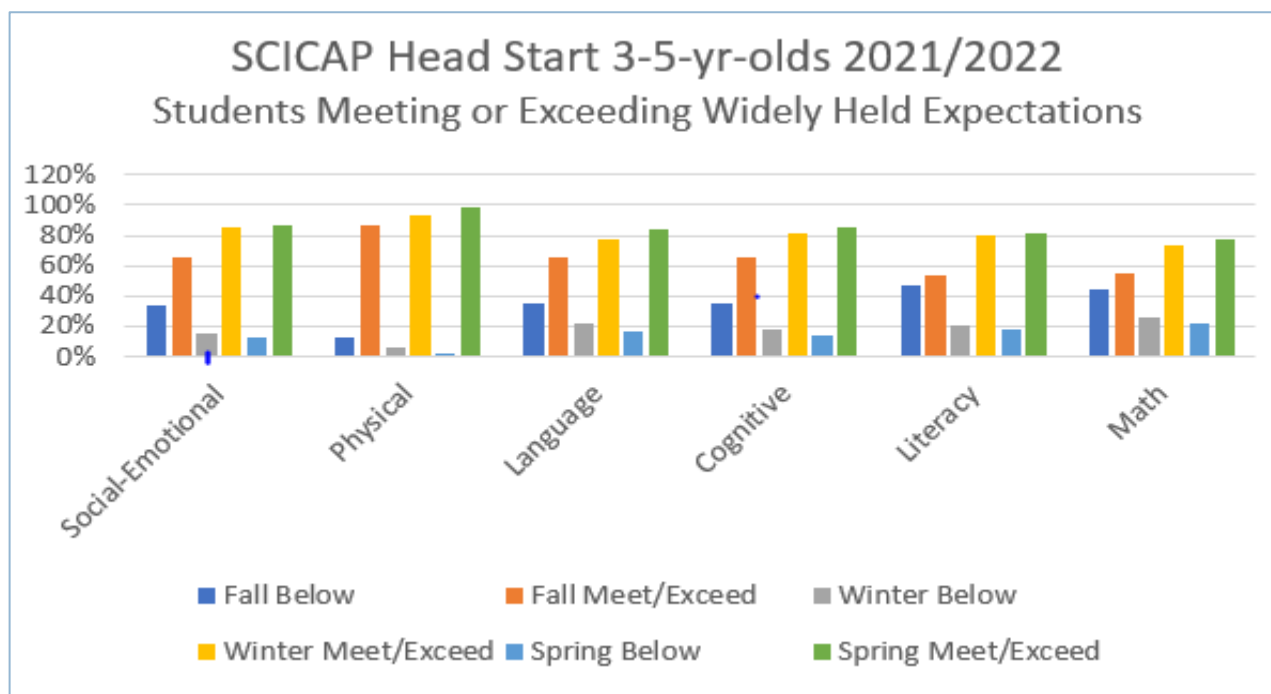

Students at collaborations and students receiving EHS homebased services had lower medical exam and dental screening rates when compared to center-based students.

Parent Involvement Activities

SCICAP Head Start believes parents are a child's most important educator. We encourage families to engage in their child's learning and development through parent education, leadership opportunities in program governance, and parent/child activities. Each county has separate parent trainings and activities. The following involvement activities were offered in all the counties we serve: family orientations, scheduled parent meetings, Policy Council, Governing Board, scheduled family activities, volunteering, home visits, transition activities, parent evaluations, parent/teacher conferences, literacy activities, open houses, fatherhood activities and remote learning with parental involvement.

Due to Covid-19 health concerns, our program limited volunteers in the classrooms and many activities/meetings continued to be modified and/or offered via Zoom to help mitigate the spread of Covid and other illnesses.

Kindergarten Readiness

This graph demonstrates that Head Start children showed growth in all six domains. This indicates evidence of meeting our kindergarten readiness goals. HS and EHS children are assessed three times per program year using Teaching Strategies GOLD child assessments.

The six domains include: social-emotional, physical, language, cognitive, literacy, and mathematics.

Transition Activities

School districts in the service area partner with our program each year to provide collaborative transitions for our students. They agree that Head Start preschool and kindergarten teachers, parents and appropriate agency representatives will meet to discuss specific needs of children to preview what transitioning Head Start students' projected proficiency levels will be at the beginning of the school year. Head Start children visit kindergarten classrooms they will be attending in the upcoming year. Some of the kindergarten teachers were able to come to Head Start classrooms for visits.

School Readiness Goals for Ages Three to Five Years

1. Children ages 3-5 will show progress in the areas of; purposefully and persistently initiate in experiences and play with creativity, independence, and positive behavior by the end of the school year
2. Children ages 3-5 will show progress in the areas of; engage in positive relationships with adults and peers through interactions and working through resolving conflicts by the end of the school year
3. Children ages 3-5 will show progress in the areas of; comprehend and engage in appropriate conversations while demonstrating a knowledge of alphabet/phonics and print concepts by the end of the school year
4. Children ages 3-5 will show progress in the areas of; connecting experiences through recognition, classification, and investigation by the end of the school year
5. Children ages 3-5 will show progress in the areas of; demonstrating strength and coordination including gross and fine motor skills by the end of the school year

Curriculum

Our program uses Creative Curriculum, Jump Start to Literacy Curriculum, Parents as Teachers, Positive Behavioral Interventions and Supports (PBIS), Conscious Discipline strategies, I am Moving I Am Learning (IMIL) and everyday classroom interactions to support meeting our school readiness goals.

On the Move...

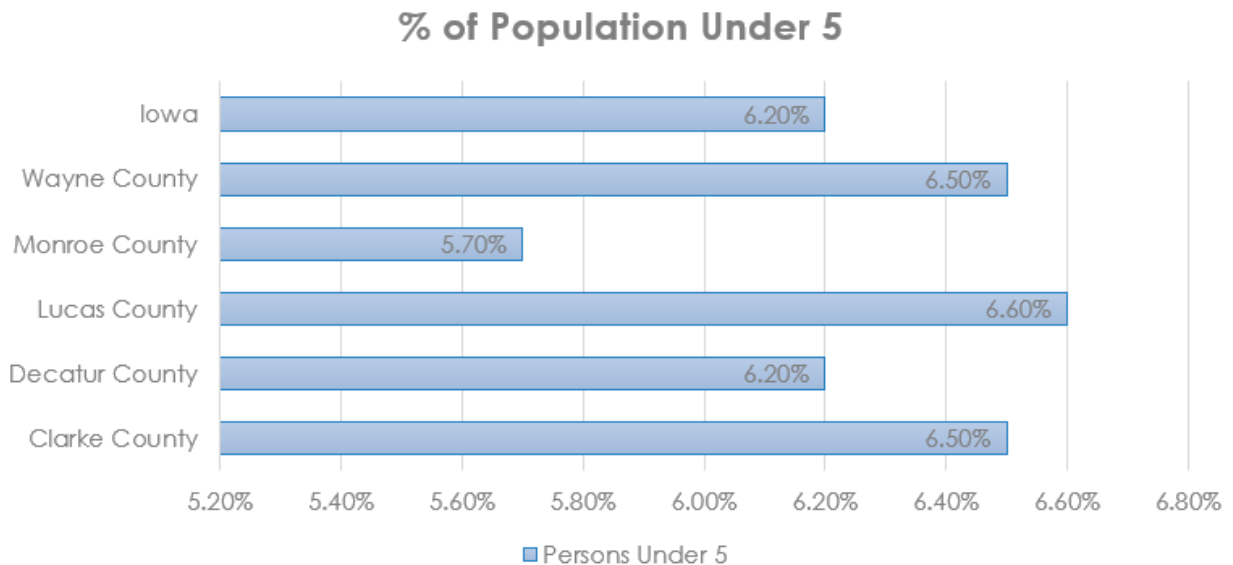

In June of 2022 the Osceola HS and EHS Homebased center relocated to 2500 College Drive in Osceola. This new location provided added convenience for families. Lamoni’s three-year-old HS classroom was moved from Funshine Learning Center to Lamoni Elementary School.

Monitoring Review and Audit Findings

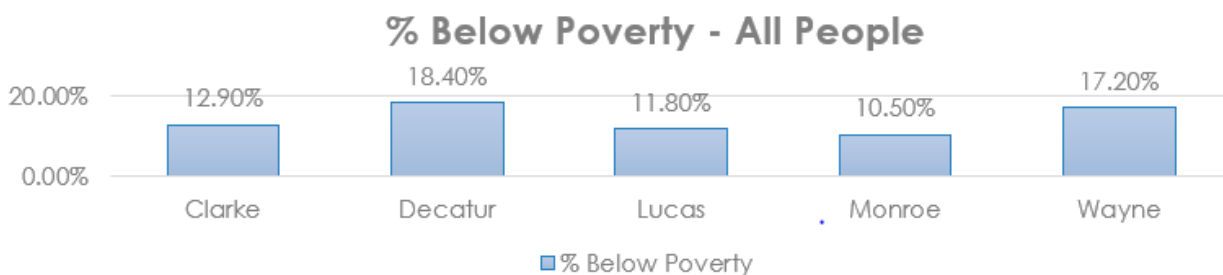

The Administration for Children and Families (ACF), Office of Head Start (OHS) conducted a monitoring review of the program in 2019. Findings were corrected in the areas of Monitoring and Implementing Quality Education and Child Development Services and Program Management and Quality Improvement.

SCICAP met all requirements of the Financial Audit Report. The audit report can be found on the SCICAP website - www.SCICAP.org
